

- Briggs and DeBord have begun working on the Passenger Transportation Plan with MAPA transportation planners. This is a joint RPA 18 /13 five year plan. The draft is due Feb. 1 and the final is due May 1.
- STBG Applications for FY27 will be open December 1 and due Friday January 27. This should work well with the cities and counties budget period.
- Plan to have a meeting Monday January 30 or Tuesday January 31 to approve the draft PTP and STBG applications.
- TAP application period will be delayed due to changes on the federal level. The state will inform us of any changes on our level and let us know when we can open the application period. Hopefully it will be able to open in January.
