

EXPENDITURE REQUEST

With the recent total loss of a relatively new SWITA bus, 2117, and ongoing demands on our system—but new buses not being manufactured at a rate sufficient to fulfill our current grant awards in a timely manner, we do need to add vehicles to our fleet by purchasing some quality used vehicles.

We anticipate receiving \$30,000-\$50,000 in insurance proceed from 2117, but that will not be known until the vehicle is released by the Iowa State Patrol.

Mark has researched and most vehicles that meet our needs and don't look like total junkers are in the \$40-\$60,000 range.

Attached are two examples of vehicles that meet our needs. Obviously, with used vehicles inventory is changing all the time. If we were to purchase these two vehicles the cost would be \$92,899. We are requesting spending authority of \$100,000 in order to purchase 2 used transit buses of similar size and quality.
